DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 5/26/2001 has been considered by the examiner.

Claim Rejections - 35 USC § 112

- 2. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3. Claims 3 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- 4. With regard to claims 3 and 22, the term "Java" is a trademark, and should not appear in the claims as a limitation (MPEP 2173.05(u)).

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 6. Claims 1-14 and 20-32 are rejected under 35 U.S.C. 102(b) as being anticipated by Cane et al., US Patent number 5,940,507.

With regard to claims 1-3, 5, 12, 20-22, 24, and 32, as best understood, Cane discloses a method for managing access to data in a processing system (column 1 lines

17-19) including, receiving a request for key encrypted data, determining whether the requestor is trusted, and sending the decrypted data (column 4 lines 16-37).

With regard to claims 4 and 23, Cane discloses that one of the data items is a key, decrypted by the server key (column 16-26).

With regard to claims 6, 7, 13, 14, 25, and 26, Cane discloses the data is indexed (column 4 lines 37-41).

With regard to claims 8-10 and 27-29, Cane discloses items added to the archive are encrypted (column 3 lines 45-59).

With regard to claims 11, 30, and 31, Cane discloses sending the key with the data (column 4 lines 29-31).

Claim Rejections - 35 USC § 103

- 7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 8. Claims 15-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cane.

With regard to claims 15-19, the examiner takes official notice that processing systems frequently have multiple busses and processors and Ethernet adapters. Cane discloses a processing system, but does not discuss the processors, busses or adapters. It would have been obvious for one of ordinary skill in the art to use Cane's

secure archiving in any such system for the disclosed motivation of securing privacy of data (column 2 lines 11-14).
